The image displays three screenshots of the Asana project 'Meal Slackers', showing different views of the task list. Each screenshot includes a sidebar with navigation options (Home, My Tasks, Inbox, Portfolios) and a main content area with a task list. A 'Customize this project' modal is visible on the right of each screenshot.

Screenshot 1 (Top): The task list is organized into sections: 'Front End' and 'Integration'. The 'Front End' section includes tasks like 'Figure out database Structure', 'Have Database Completed', 'Create Event Page', 'Website Design/Structure Plan', 'Create a Main page for the app', and 'Have Main Page Completed'. The 'Integration' section includes 'Integrate Main Page', 'Integrate Log In - Passport API', and 'Integrate Registration Page'.

Screenshot 2 (Middle): The task list is organized into sections: 'Back End' and 'Front End'. The 'Back End' section includes tasks like 'E-Mail verification feasibility', 'Research server database', 'Basic Flask Server Setup', and 'Figure out database Structure'. The 'Front End' section includes tasks like 'Create Event Page', 'Website Design/Structure Plan', 'Create a Main page for the app', and 'Have Main Page Completed'.

Screenshot 3 (Bottom): The task list is organized into sections: 'Integration' and 'Front End'. The 'Integration' section includes tasks like 'Integrate Main Page', 'Integrate Log In - Passport API', 'Integrate Registration Page', 'Integrate Interests', 'Integrate User Settings Update', 'Integrate Event Creation', 'Error messages', and 'Clean up and change log in to email'. The 'Front End' section includes tasks like 'Have Main Page Completed', 'Create Log In, Password Recovery page, and Registration Page', 'Update User Settings Page', and 'Make sure web pages are on theme'.
